

# AMG Software Ltd.

Contributed by Mark Gaywood

About us AMG Software Ltd was started in November 1997. The founder Mark Gaywood established AMG Software Ltd as an expert company for the Risk based (Insurance, Finance and Basel II) and ecommerce market places. With a long background in database and Object-Oriented development for various risk markets, Mark was quick to see re-use opportunities for several insurance companies. Utilising his java and XML skills has build reusable solutions for several clients. Angela Gaywood joined the company as a consultant, specialising in reinsurance, broking and claims handling. With her background in fine art she also designs user interfaces for both web-based and non web-based solutions. AMG Software Ltd are proud sponsors of Corringham Cosmos United.
